

Third Party Notification

Occasionally, it becomes necessary for the Cooperative to discontinue service to members. This usually occurs when we have been unsuccessful in trying to collect bill payments or arrange satisfactory payment schedule for past due accounts.

Otsego Electric Cooperative offers a service in the interest of any member who may be subject to disconnection. We will mail a notification to a third party specified by the member, such as a relative, neighbor, clergyman, or social service representative, advising them that service to the member is subject to termination.

The sole purpose of this procedure is to involve a third party who may be in the position of preventing an interruption in service by counseling the person responsible for the bill payment. *The third party named will, in no way, be responsible for payment of the delinquent account.* By offering this service, we hope to protect the aged, the disabled and those who may not understand the consequences of having their service discontinued.

If you wish to take advantage of this service, please complete the accompanying form, have the third party sign and date where applicable and return it to our office: Otsego Electric Cooperative, Inc., P.O. Box 128, Hartwick, NY 13348-0128. We will notify the specified third party if ever we find it necessary to terminate electric service.
